About Us

Riyahi Sanitary Company established in 1971.

This company started the business in producing the water valves and taps and metal pop-up for Iran's market.

After some years the company has developed his market and started to exporting to the neighboring countries.

In 1981 with attention to developing the plastic products and changing the most of products to plastic materials, the company changed his products to sanitary faucets with commercial name Risco. The products found the good market in Arabic and African countries very soon.

Today the goods are exporting to Arabic and African countries and have good name in these countries. Risco Company is producing more than 180 models of faucets with best quality. The company always is looking for quality innovation and good service for his customers.

О нас

Производство «Riyahi Industrial Manufacturing» было основано в 1971 году. В 1986 году

производство переехало на новый завод площадью 6000 квадратных метров. Компания инвестировала в современное оборудование, включая литейный цех, токарные и фрезерные станки, полировочные машины, а также оборудование для сборки и упаковки. После создания конструкторского и литейного блоков внутри завода, подразделение смогло разработать и изготовить уникальные модели. Завод оснащен самыми передовыми технологиями: автоматической литейной машиной, которая обеспечивает производство цельных корпусов и двухосными

обрабатывающими центрами. Для производства картриджей смесителей применяется технология

распараллеливания гнезда катриджа, обеспечивающая равномерное давление и продлевающая срок службы. Использование ультразвуковых

устройств перед нанесением покрытий на французский и канадский материалы, создает высококачественную форму корпуса. Завод использует швейцарские картриджи,

имеющие высокие европейские стандарты промоводства (что снижает потребление воды с 17 литров в минуту до 9 литров в минуту) и стальные шланги из специальной стали, разработанные для надежности продуктов, при использовании нашими клиентами.

تولیدی صنعتی ریاحی در سال ۱۳۵۰ توسط آقای مهندس محمود ریاحی فرد در زمینه تولید شیرهای برنجی و چدنی مورد نیاز سازمانهای آبرسانی تاسیس شد. این واحد به زودی توانست با توجه به کیفیت خوب حاصل از تجربه و علم آن زمان، نام خوبی را در این صنف برای خود بدست آورد و در ادارات آب و فاضلاب سراسر کشور مطرح شود و موفق به قبولی در مزایادات دولتی و خصوصی گردد.

این واحد بنا بر نیاز بازار اقدام به تولید سایر لوازم بهداشتی نمود و موفق به تولید سیفون های بهداشتی از جنس زاماک برای اولین بار در ایران شد به طوری که اکثر فروشندگان لوازم بهداشتی قدیمی، سیفونهای فلزی مارک ریاحی و فردان و کیفیت خوب آن را به یاد دارند. با توجه به افزایش تقاضای محصولات این واحد و محدودیت امکانات، این تولیدی در سال ۱۳۶۵ اقدام به تغییر مکان به کارخانه جدید با مساحت ۶۰۰۰ متر مربع و سرمایه گذاری در تجهیز واحدهای ریخته گری، تراشکاری، پرداختکاری، آبکاری و موتاژ و بسته بندی با بهترین تجهیزات روز نمود.

با تجهیز و افزایش توان تولید کارخانه، مدیریت کارخانه، به پیشنهاد چند تن از تجاری که تولیدات این واحد را صادر میکردند در سال ۱۳۶۸ موفق به تولید شیرآلات بهداشتی با مارک ریاحی شد.

با توجه به رضایت تجار و مصرف کنندگان خارجی و نیاز زیاد کشور به ارز، عمده تولیدات کارخانه به کشورهای مختلف صادر شد. به طوری که تولیدات این کارخانه تا دورترین کشورهای جهان صادر و مورد استفاده قرار گرفت و سهم بسیار کمی از این تولیدات در داخل کشور توزیع میشد. با رشد کیفیت، این واحد در سال ۱۳۷۹، درصد کسب نشان استاندارد برآمد. در آن زمان کمتر کارخانه شیرآلات دارای این نشان بود و استاندارد ایران در مورد شیرآلات نادر بود. این واحد در سال ۱۳۸۱ موفق به کسب نشان استاندارد ایران شد و با افزایش ظرفیت خود، محصولات استاندارد خود را با نام تجاری ریسکو که مخفف شیرآلات بهداشتی ریاحی میباشد، به بازار ارائه کرد. این واحد همواره در بروزرسانی محصولات و استفاده از تجهیزات روز دنیا فعال بوده و مجهز به دستگاههای تست و کنترل کیفیت مورد تایید اداره استاندارد میباشد. با تاسیس واحد طراحی و قالب سازی درون کارخانه، این واحد موفق به طراحی و ساخت مدل های منحصر به فرد شد به طوری که هیچ یک از مدل های ریسکو دارای مشابه داخلی و خارجی نیستند.

A photograph of a kitchen sink area. In the foreground is a white, double-basin farmhouse-style sink. A chrome faucet with a high-arch, flexible pull-down sprayer is mounted on the sink. The sink is set into a light-colored wooden countertop. Behind the sink is a wooden windowsill and a large window with a black frame, showing a view of green trees outside. To the left, there are two wooden shelves mounted on a grey wall. The bottom of the image shows dark grey kitchen cabinets with silver handles.
